Key activities included presentations by young eco-entrepreneurs from each partner country, showcasing their journeys and successes in the field. Partners also participated in a cultural lunch in Paris, where they celebrated the diverse cultures involved in the project. Visits to iconic Paris landmarks, including the Eiffel Tower, provided a glimpse of the city's historical and cultural heritage. Additionally, the partners visited climate change academia. This experience further reinforced the importance of sustainability in both the business and academic sectors. The week concluded with a Youthpass certificates ceremony, acknowledging the contributions of the participants and their role in advancing sustainable practices.

Stay tuned for more updates as the project continues to grow and inspire future generations of eco-entrepreneurs!
